Professional Summary

I'm a student enrolled at CodeStack Academy striving to become a web developer, with a strong foundation in HTML, CSS, JavaScript, and React. With 11,000 hours (about 1 and a half years) of experience, I look forward to creating real-world projects and contributing to web development.

Technical Skills

Languages

Html, JavaScript, C#, CSS, TypeScript

Frameworks, Libraries, and Tools

Bootstrap, Tailwind, NextJs, React, Unity, React Swipeable, Figma, Word, Azure, GitHub, Angular, Slack, Notion, Jira, VSCode, Postman

Volunteer Experience / Projects

Experience - Ronald McNair High School

Front Office TA

May 2022 – March 2023

- Worked with a team of 4 to deliver a large sum of covid vaccines throughout the school within 48 hours (about 2 days) left of school
- Communications with multiple teachers / parents about school related questions and other
- Contributed to staff, sorting files alphabetically and sent papers to multiple classrooms.

Personal Project - Pokémon Api

Web Designer / Frontend Developer

March 2024

- Created design using Figma, tested Pokémon API endpoint using Postman, and hosted on Vercel
- Used HTML, Tailwind, and the React library to create functionality ensuring accessibility for users

Team Project - ShorTalk

Frontend Developer

March 2024 – May 2024

- Collaborated with a team of 3 using the NextJs framework, Tailwind, and Flowbite to create a functional game
- Created 90% of design on pages and made components for use in the final product
- Made sign up and login functionality for users, also added a guest randomizer for quick access
